

Global Stem Cells Group
CLINIC NETWORK

The Platinum Program: Your Gateway to Advanced Regenerative Medicine

by Benito Novas

Exclusive Membership in the GSCG Network

Global Network

Join the world's largest network of regenerative medicine clinics, connecting you with a diverse community of peers and experts.

Enhanced Credibility

Leverage GSCG's internationally recognized branding, logos, and testimonials to bolster your clinic's reputation and attract new patients.

Cutting-Edge Cryopreservation Bank

Optimal Storage

Establish a cryopreservation bank capable of storing mesenchymal stem cells (MSCs), exosomes, and other cellular products at optimal conditions, ensuring their viability and efficacy.

Reduced Delays

Minimize shipping delays and costs by having cryopreserved products readily available, allowing for immediate use and streamlined treatment delivery.

Advanced Technology

Maintain cell quality, viability, and consistency through advanced protocols, liquid nitrogen storage systems, and state-of-the-art equipment.

Cellgenic Product Line Access

Exosomes

Leverage the potential of extracellular vesicles for next-generation therapies, targeting specific cellular pathways and promoting tissue regeneration.

NK Cells

Harness the power of natural killer cells for cutting-edge immunotherapy treatments, targeting and eliminating abnormal or cancerous cells.

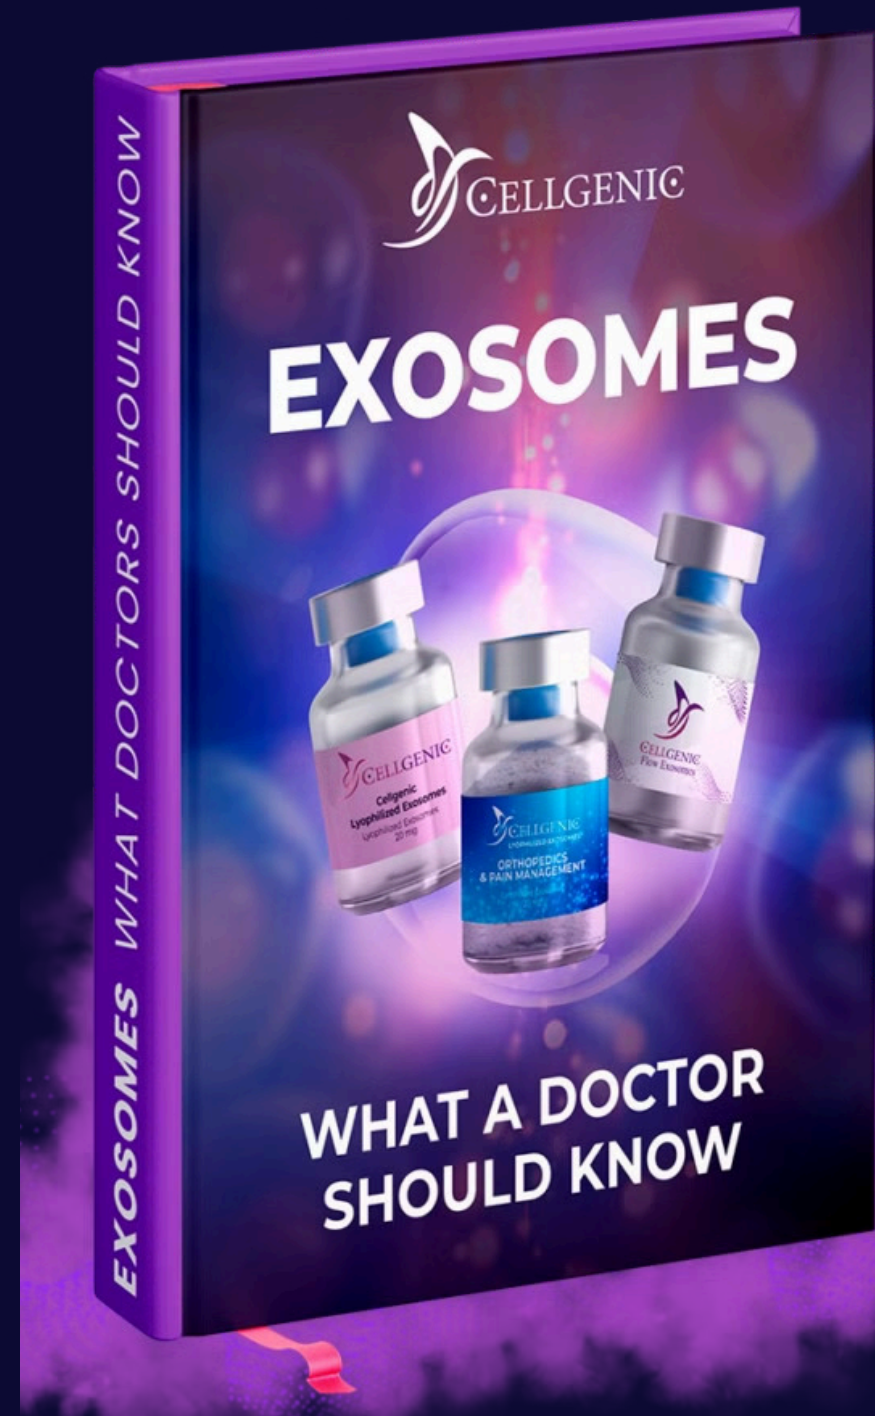

MUSE Cells

Utilize revolutionary regenerative cells with enhanced therapeutic potential for a wider range of applications, providing optimal healing and restoration.

Umbilical Cord MSCs

Employ high-proliferation cells ideal for anti-inflammatory and regenerative applications, promoting tissue repair and reducing inflammation.

Turnkey Laboratory Solution

Comprehensive Setup

Benefit from comprehensive planning, design, and setup of your cryopreservation bank, ensuring a seamless and efficient transition into advanced cellular therapies.

Essential Equipment

Receive a suite of high-quality laboratory equipment, including a Class II Biosafety Cabinet, centrifuge, cell counter, liquid nitrogen tanks, and thermoregulated water baths, ensuring safety and efficiency.

Instructor

BENITO NOVAS

AS ISSCA'S VICE PRESIDENT AND MARKET STRATEGIST, BENITO NOVAS CHAMPIONS THE GLOBAL ACCESSIBILITY OF STEM CELL THERAPIES. HIS EXPERTISE EMPOWERS PHYSICIANS AND RESEARCHERS TO MAKE THESE TREATMENTS MORE WIDELY AVAILABLE.

Comprehensive Training and Support

1

Hands-On Training

Receive expert-led training in cryopreservation techniques, laboratory processes, and clinical applications, ensuring your team is equipped to handle advanced cellular therapies with confidence.

2

Ongoing Consultation

Benefit from ongoing consultation with the GSCG's Scientific Advisory Board, receiving the latest protocol updates and clinical guidance, ensuring the highest standards of care.

3

SOPs and STEMdata

Gain access to industry-leading Standard Operating Procedures (SOPs) for consistent quality and to GSCG's cloud-based STEMdata system for tracking patient outcomes and contributing to research.

Revenue Growth Opportunities

1

Distributor Network

Expand your reach and revenue by becoming a distributor of high-demand cellular products to other clinics and practitioners, sharing the benefits of advanced therapies with a wider audience.

2

Advanced Therapies

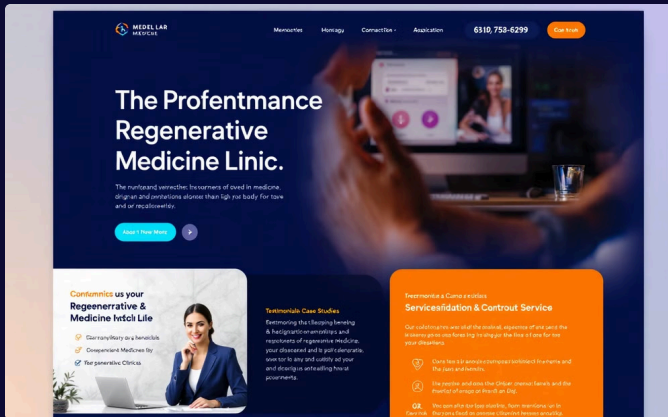

Offer a broader range of treatments to your patients, including custom regenerative protocols for chronic, degenerative, and autoimmune conditions, addressing complex medical needs with cutting-edge solutions.

3

Regional Hub

Become a regional hub for innovative treatments, establishing your clinic as a center of excellence and attracting patients seeking advanced regenerative medicine solutions.

Marketing and Business Development Support

Branding & Website

Leverage GSCG's marketing expertise for professional branding, website design, and social media management tailored to the regenerative medicine sector, effectively reaching your target audience.

Digital Marketing

Benefit from proven digital advertising strategies, including Google Ads, social media campaigns, and email marketing, ensuring your clinic stands out and attracts new patients.

Video Production

Create compelling video content featuring patient testimonials and case studies to build trust, showcase results, and attract new patients seeking effective treatments.

Exclusive Distributor Advantage

1

New Revenue Stream

Unlock a new revenue stream by becoming a trusted distributor of regenerative medicine products to other clinics and physicians, expanding your business and impact.

2

Exclusive Rights

Gain exclusive rights to distribute the Cellgenic product line within your assigned territory, establishing your clinic as a primary source for these innovative treatments.

3

Trusted Supplier

Gain recognition as a trusted supplier of world-class cellular products, building credibility and attracting a wider range of practitioners and clinics seeking reliable and high-quality solutions.

Global Collaboration Opportunities

1

ISSCA Events

Stay at the forefront of regenerative medicine research by attending ISSCA-certified courses, summits, and events, connecting with leading experts and gaining valuable insights.

2

Global Collaboration

Engage in collaborative projects with top researchers, practitioners, and thought leaders worldwide, contributing to groundbreaking clinical studies and advancing the field.

3

Scientific Advancements

Contribute to the development of new treatments, protocols, and technologies, advancing regenerative medicine practices and improving patient outcomes.

Who Should Join the Platinum Program?

1

Committed to Innovation

Physicians and entrepreneurs committed to advancing their clinic with the latest in regenerative medicine technology, embracing cutting-edge solutions for patient care.

2

Superior Treatments

Clinicians dedicated to offering their patients superior treatments backed by advanced science, providing the highest level of care and achieving optimal results.

3

Leaders in the Field

Aspiring leaders in the field of regenerative medicine seeking the support of a globally trusted brand to establish their clinic as a center of excellence.

4

Expansion and Growth

Clinics seeking to expand their revenue by entering the distribution market for cellular products, extending their reach and impact within the regenerative medicine sector.

Why the Global Stem Cells Group?

Trusted Leader

GSCG is a trusted leader in regenerative medicine, with over a decade of experience, having trained thousands of doctors, set up labs and clinics in over 35 countries, and consistently delivered innovative solutions to practitioners worldwide.

Unmatched Expertise

Our comprehensive expertise ensures your success at every step, from facility design and equipment selection to training, certification, and ongoing support, providing you with the resources and guidance you need to thrive.

Platinum Program

Platinum program, are snaycs a using your prishome and insgration, and navur indigo and vacreatly comfuenation.

Ogening support tips

What's Included in the Platinum Program?

1

Feasibility Study

Receive a tailored analysis of your facility's needs and potential, ensuring the Platinum Program aligns perfectly with your clinic's goals and aspirations.

2

Equipment Supply

Benefit from the delivery and installation of essential laboratory tools and cryopreservation systems, ensuring your facility is fully equipped for advanced cellular therapies.

3

Training & Certification

Receive comprehensive education for your staff, ensuring clinical and operational excellence, empowering your team to handle advanced cellular therapies with expertise and confidence.

4

Turnkey Setup

Enjoy a seamless transition with a turnkey setup, from facility design to operational launch, allowing you to focus on patient care and practice growth.

Ongoing Support

Advisory Board

Access GSCG's Scientific Advisory Board for ongoing consultation, receiving the latest research, protocol updates, and clinical guidance to maintain the highest standards of care.

1

Global Network

Benefit from GSCG's extensive global network, connecting with other practitioners, researchers, and thought leaders, fostering collaboration and knowledge sharing within the field of regenerative medicine.

3

Marketing Resources

Leverage GSCG's marketing expertise and resources, including branding, website design, digital marketing, and video production, to effectively reach your target audience and attract new patients.

2

Transform Your Practice with the Platinum Program

Elevate Your Clinic's Services

Advanced Therapies

Offer your patients a wider range of treatments, including custom regenerative protocols for chronic, degenerative, and autoimmune conditions, providing cutting-edge solutions for complex medical needs.

Improved Outcomes

Enhance patient outcomes with advanced cellular therapies, promoting healing, reducing inflammation, and improving overall quality of life, demonstrating the power of regenerative medicine.

Professional Development

Stay at the forefront of the field with continuous education, attending ISSCA-certified courses, summits, and events, ensuring you are equipped with the latest knowledge and advancements in regenerative medicine.

Expand Your Practice's Reach

1

Distributor Network

Become a distributor of high-demand cellular products to other clinics and physicians, expanding your business and reach, sharing the benefits of advanced therapies with a wider audience.

2

Regional Hub

Establish your clinic as a regional hub for innovative treatments, attracting patients seeking advanced regenerative medicine solutions, increasing patient volume and revenue.

3

Global Collaboration

Engage in collaborative projects with top researchers, practitioners, and thought leaders worldwide, contributing to groundbreaking clinical studies and advancing the field.

Unleash Your Clinic's Potential

Comprehensive Support

Benefit from GSCG's comprehensive support, including feasibility studies, equipment supply, training, turnkey setup, and ongoing guidance, ensuring a smooth and successful transition to advanced regenerative medicine.

Marketing Expertise

Leverage GSCG's experienced marketing team to promote your clinic, effectively reaching your target audience with professional branding, website design, and digital marketing strategies.

Global Network

Connect with a global network of practitioners, researchers, and thought leaders, fostering collaboration, knowledge sharing, and the advancement of regenerative medicine practices.

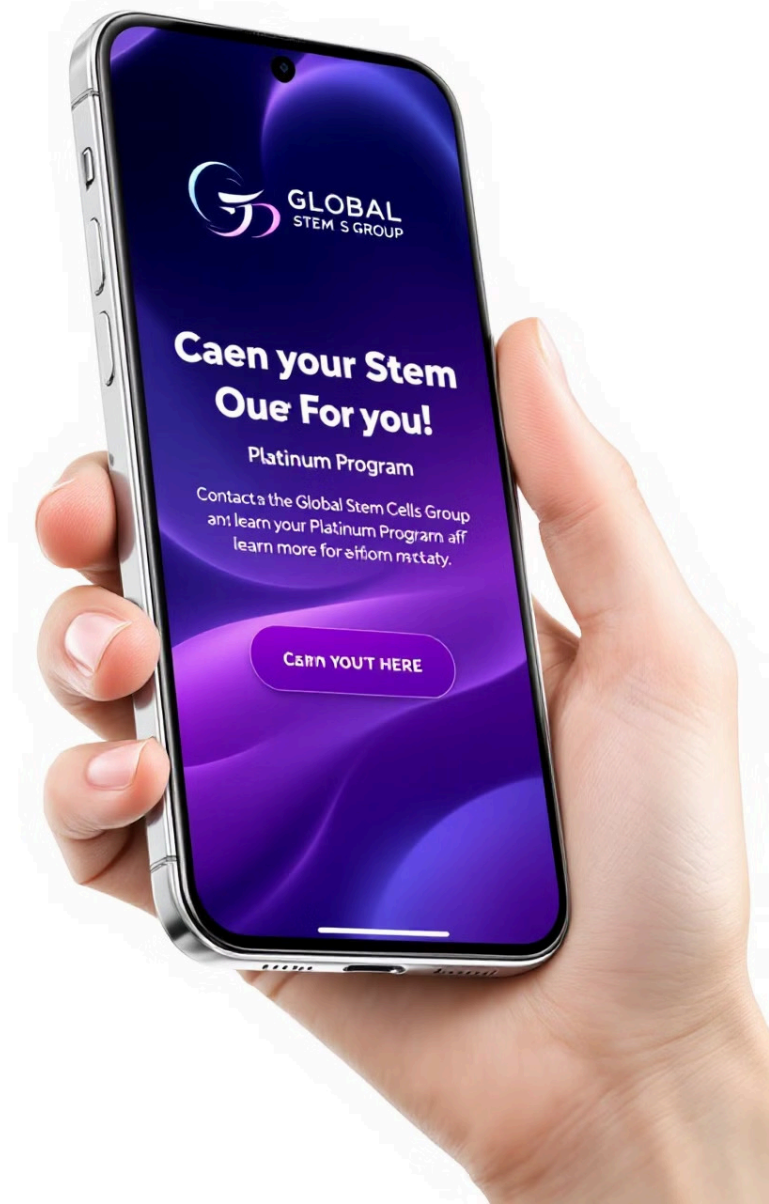

Become a Leader in Regenerative Medicine

Cutting-Edge Technology

Equip your clinic with state-of-the-art cryopreservation technology, ensuring the highest quality of cellular products and providing your patients with the most advanced treatments.

Global Recognition

Join the world's largest network of regenerative medicine clinics, benefit from GSCG's internationally recognized branding, and become a trusted authority in the field.
